

KEEP IT REAL BOARD GAME

YOU >> unscripted

The *Keep It Real* game is stirring up campuses throughout New York City.
It's not just a board game.

It's a powerful, groundbreaking, and field-tested communication tool that breaks down barriers and builds community among players.

“ “ The *Keep It Real* game has unblocked the pathways into my students' hearts! After two rounds of riveting questions from this game, I recognized a light shining through a window, highlighting the inner thoughts of all of the people around the table. We shared serious pasts, as well as fun childhood memories that kept us riveted for hours. We did not want to stop playing, even though class was starting in 5 minutes. If you work with high school and college aged students, like I do, I highly recommend you invest in hosting game nights with the *Keep It Real* game. ” ”

Shawn Best

Director of Residence Life
The King's College, NYC

“ “ High school students are living in a culture where communication occurs via the internet and text messaging. True and genuine communication seems rare nowadays. The *Keep It Real* game will challenge students to think beyond their limited experience, to dream, to joke, to laugh, to create a culture of transparency and vulnerability. This is by far the greatest strength of this game, namely transparency, for when this is accomplished, youth can be who they are; not who they think they should be. They can Keep it Real! ” ”

Moses Sanchez

Youth Minister, Student Venture NYC
www.svnyc.com

“ “ *Keep It Real* isn't just a board game--it is a fun, compassionate, jaw-dropping and intellectual way of life. Each space on the board represents a unique opportunity to discuss serious issues such as relationships, bullying and religion, and lighthearted ones such as pop culture, superpower wishes, and dreams. The action cards are hilarious, prompting seemingly shy and ordinary people to get out of their seats and dance, scream, twirl and make noise. *Keep It Real* is perfect for students striving to discover themselves in a world brimming with diverse ideas. *Keep It Real* never fails to deliver an adventure in a comfortable and judge free zone. I promise you that *Keep It Real* will literally change your life. ” ”

Brian Kateman

Jeanette K. Watson Fellow

Perfect for anti-bullying projects, student orientations, diversity initiatives and for transformational personal growth.

“ “ *Keep It Real* challenges us in ways that would do far more than entertain or help to pass the time. It will stay with us in potentially life altering ways in rebuilding our perceptions of others and ourselves, while having us run a fun-filled spectrum of emotions in the process. ” ”

Gerard Brown

Teacher and Screenwriter of "Juice" starring Tupac Shakur
